Superintendent's Highlights

1997-98 was a particularly successful year for Wilder. Every grade met their academic goals in reading, and every grade except grade 9 met their goals in math. Ninety-two percent of the junior class passed the state writing exam this year. Our business education students went to state again, and while they didn't win the state BPA competition, they did place within the top 4. Our auto mechanics state champion of last year repeated his winning ways this year and goes to national VICA competition this summer. And, of course, we are proud of our 4th boys' basketball state championship.

A particularly rewarding accomplishment this year has been the development of a district-wide accreditation, accountability and school improvement model that meets local, state, regional, and federal requirements but is driven by local needs and local decision-making. The new system requires about one-third the time and effort of the traditional models we have used, while it provides an unfragmented, system-wide approach toward school improvement.

Progress Towards Meeting District Goals

1997-98 Goals

All Wilder students will demonstrate the basic skills competence necessary for passing each grade level within the Wilder achievement-based curriculum.

All graduates of Wilder High School will be competent to enter the work force and/or enter post-secondary educational institutions and be successful there.

Progress

All grades met their performance standard in reading. All grades but grade 9 met their math standards.

Seventy-four percent of the graduating class will be attending post-secondary education institutions. Sixteen percent will enter the job force through military service.
